Message from the Chair

It is my pleasure to present the 2008-2011 Business Plan for the Environmental Review Tribunal. This Plan highlights the Tribunal's future commitments and challenges.

During this past year, we were pleased to be able to reach our full complement of five Vice-Chairs as well as bringing on three new part-time Members to replace Members whose terms had expired.

In July 2007, the Minister of Municipal Affairs and Housing appointed the Environmental Review Tribunal to be the Hearing Officer under the *Greenbelt Act, 2005*. As well, in 2007, the *Clean Water Act, 2006* was proclaimed, which provides for the Tribunal to hear appeals as set out in that legislation. This means that the Tribunal now hears applications, appeals, and referrals under 12 separate pieces of legislation. The Rules of Practice and Practice Directions and Guides were revised in November 2007 to reflect our new responsibilities.

As new legislation is proclaimed or amendments made to existing statutes, we provide Members and staff with information and training on meeting the additional responsibilities.

In March, 2008, the Tribunal relocated to 655 Bay Street as part of the clustering of five tribunals. It is now clustered into the Assessment, Environmental and Municipal Appeals Tribunals, sharing space and some administrative functions with the Assessment Review Board, Board of Negotiation, Conservation Review Board and the Ontario Municipal Board. The Tribunal maintains its distinct mandate and identity.

The Tribunal will continue to meet its commitments for timely scheduling and decision-making; providing on-going training to Members and staff; and keeping the information on its website up to date. We continue to strive for excellence in conducting proceedings and writing quality decisions.

The Tribunal looks forward to meeting additional challenges while continuing its commitment to provide excellent service to the public.

Toby Vigod
Chair

Tribunal Mandate

The Environmental Review Tribunal is committed to conducting timely, fair, efficient and impartial hearings, which protect the environment and are consistent with the applicable governing legislation.

The Tribunal functions as a quasi-judicial administrative tribunal, subject to the rules of natural justice, procedural fairness and the requirements of the *Statutory Powers Procedure Act*. The Tribunal's primary role is to adjudicate applications and appeals under various environmental statutes.

The Tribunal determines applications and appeals under the *Clean Water Act, 2006*, the *Environmental Assessment Act*, the *Environmental Protection Act*, the *Nutrient Management Act, 2002*, the *Ontario Water Resources Act*, the *Pesticides Act*, the *Safe Drinking Water Act, 2002*, and leave to appeal applications under the *Environmental Bill of Rights, 1993*. The Tribunal also hears matters under the *Oak Ridges Moraine Conservation Act, 2001* and the *Greenbelt Act, 2005*.

The Environmental Review Tribunal also functions as the Office of Consolidated Hearings to hear applications filed under the *Consolidated Hearings Act* and as the Niagara Escarpment Hearing Office to hear appeals of development permit applications and Niagara Escarpment Plan amendment applications under the *Niagara Escarpment Planning and Development Act*.

Tribunal Functions

The Environmental Review Tribunal has four main functions which are:

- 1. Pre-Hearings, Hearings and Decision Making**
- 2. Processing of Hearings**
- 3. Mediation**
- 4. Public Access**

1. PRE-HEARINGS, HEARINGS AND DECISION MAKING

This function is performed by the Tribunal Members, all of whom are Order-in-Council appointees, and includes the conduct of motions, preliminary hearings, hearings and the writing of decisions.

Under the *Niagara Escarpment Planning and Development Act*, pre-hearing conferences and hearings are scheduled. All recommendations/decisions made on appeals of development permit applications are required by legislation to be rendered within 30 days of the conclusion of the hearing or within such longer period as the Minister of Natural Resources may allow. Niagara Escarpment Plan amendment application decisions must be rendered no more than 60 days after the conclusion of the hearing or within such extended time as the Niagara Escarpment Commission may specify.

The Tribunal schedules written hearings for leave to appeal applications under the *Environmental Bill of Rights, 1993*. Tribunal decisions regarding the *Environmental Bill of Rights, 1993* leave to appeal applications are required by regulation to be rendered within 30 days from the day on which the application is filed, unless the Tribunal Member determines that, due to unusual circumstances, a longer period is required.

In all other types of matters filed with the Tribunal and scheduled for a hearing, Tribunal Members endeavour to render their decision within 60 days of the conclusion of the hearing or the filing of final written submissions (if ordered by the hearing panel).

2. PROCESSING OF HEARINGS

This function which is performed by the Tribunal Staff includes all the administrative steps necessary to process an appeal/application from the date of filing to the completion of the hearing. The Tribunal hears appeals/applications pursuant to a number of different statutes. When an appeal/application is received, it is dealt with through an administrative process. Each process

includes:

- reviewing the appeal/application to assess its compliance with the appropriate legislation;
- acknowledging the appeal/application and requesting further information, if required;
- scheduling the hearing;
- monitoring and managing the case throughout the process
- posting the final written decision on the website

3. MEDIATION

Parties are encouraged to narrow or settle their differences at an early stage of the hearing process. Mediation services are offered to the parties by the Tribunal following a preliminary hearing and generally 30 days prior to the commencement of the main hearing. These services may remove the need to proceed to a full hearing or reduce the number of hearing days by narrowing the issues to be adjudicated.

A number of the Tribunal Members are certified to conduct mediation. Mediation is offered to all parties, except in matters under the *Niagara Escarpment Planning and Development Act*, *Oak Ridges Moraine Conservation Act, 2001* and the *Greenbelt Act, 2005*.

4. PUBLIC ACCESS

The Tribunal provides the public with information regarding its role, hearing procedures, status of cases and processes under all relevant statutes through its website and “Guides”. Copies of the “Guides” may be obtained directly from the Tribunal’s website or, upon request, by mail. A wide variety of information, which is regularly updated, is provided to the public through the Tribunal’s website. Users have access to information regarding scheduled hearings, the status of cases, decisions, orders, forms, relevant statutes, and Rules of Practice and Practice Directions.

The Tribunal staff respond to questions from clients and the public regarding hearings and processes of the Tribunal. Upon request, information sessions are held to educate various public groups and students about the Tribunal’s jurisdiction, processes and other matters.

The Tribunal sends out questionnaires following hearings and mediations in

order to receive information on its performance. The Tribunal also welcomes feedback regarding new policies, procedures and general operational issues. Comments may also be submitted to the Tribunal by accessing the website and completing the feedback form.

Annual Report on Key Achievements for 2007-2008

The Tribunal reports on its annual achievements in its Annual Report, which is presented to the Minister of the Environment within 90 days following the end of the fiscal year.

Key Commitments and Strategies for 2008-2009

The Tribunal has set the following goals as priorities for the fiscal year 2008-2009:

1. PRE-HEARINGS, HEARINGS AND DECISION MAKING

This commitment relates to the conduct of motions, preliminary hearings, hearings and the writing of decisions.

Commitment #1: *Parties to be treated with Courtesy and Respect:*

Tribunal Members will ensure that all parties are treated with courtesy and respect when appearing before the Tribunal. This is one criterion that is used to measure a Member's performance, as reflected in the "Position Description and Performance Planning and Review for Members". The Tribunal sends out Questionnaires to the parties in most of its proceedings and requests comments regarding its performance. The Tribunal also has a Complaints Policy to address concerns about the conduct of its Members. The Tribunal treats all such complaints very seriously. Complaints are investigated thoroughly and in accordance with that Policy. After the investigation, a final report is sent to the complainant.

Risk Assessment:

Without having a process to capture feedback regarding Members' conduct and measures in place to address any complaints regarding the conduct, the reputation of the Tribunal might be adversely affected.

Commitment #2: *Target Timelines for Decision Rendering:*

Tribunal Members will comply with all legislated requirements. For those decisions without legislated requirements, excluding decisions under the *Consolidated Hearings Act*, Tribunal Members will endeavour to render 80% of these decisions within 60 days following the conclusion of the hearing or the filing of final written submissions (if so ordered by the hearing panel).

Where matters have been terminated due to a settlement agreement, Tribunal Members will render these decisions within 10 days from the receipt of the settlement agreement.

Risk Assessment:

The length and complexity of a hearing will often have a direct impact on the time required by the Member to prepare a decision.

Commitment #3: *Provide Training for Tribunal Members:*

On-going training ensures that Members are properly prepared to fulfill their duties as adjudicators. All newly appointed Members receive extensive training and are expected to review the respective Acts, Regulations, and the Tribunal's Rules of Practice and Practice Directions. New Members attend training sessions provided by Tribunal Counsel, and are assigned to observe hearings before acting as panel Members. Once new Members are comfortable as panel Members, they are assigned to chair hearings with other Members and write decisions. After the completion of this training, new Members are then assigned to conduct hearings on their own.

All Members participate in the Tribunal's Learning Programs, which are a series of educational and training sessions held regularly throughout the year. The Learning Programs are designed to enlighten the Members on a broad range of environmental, planning and administrative law issues. Members attend in-house training sessions provided by Tribunal Counsel on the Tribunal's enabling and governing legislation, Rules of Practice and administrative processes. Members also attend courses and conferences held by other organizations, such as the Council of Canadian Administrative Tribunals, the Society of Ontario Adjudicators and Regulators and the Law Society of Upper Canada. Vice-Chairs also attend accredited courses on alternative dispute resolution.

Risk Assessment:

It takes a significant amount of time to train new Members to become proficient in conducting hearings on their own and handling a number of cases that may be at different stages in the process. This could impact the Tribunal's ability to schedule and determine matters in a timely fashion.

Commitment #4: Offer Pre-Hearing Conferences and schedule Preliminary Hearings, prior to the commencement of the Hearing:

The Tribunal is committed to providing pre-hearing conferences for matters under the *Niagara Escarpment Planning and Development Act (NEPDA)* and preliminary hearings for all other appeals and applications, at least 30 days before the commencement of the hearing.

Risk Assessment:

Pre-hearing conferences for *NEPDA* matters and preliminary hearings for all other appeals and applications are held to prepare the parties for the main hearing. At these hearing events, the parties identify the issue(s) and agree to set dates to complete document exchange and/or witness statements.

In *NEPDA* matters, pre-hearing conferences can only be held if the parties agree to participate. When parties choose not to participate, they may not be properly prepared, documents may not be exchanged in a timely fashion, and the hearing may be adjourned, causing a delay in the resolution of the appeal.

Commitment #5: Report on requests for review, appeals and judicial reviews of Tribunal Decisions:

The Tribunal will report on the outcome of requests for review, appeals and judicial reviews of its decisions. Upon the release of any such appeals or judicial review decisions, the Tribunal will review its own practices, if required.

Risk Assessment:

The risk of not reporting on the outcome of requests for review, appeals and judicial reviews of Tribunal decisions is that the public or interested parties may not be aware of the outcome. There is no statutory requirement for any party to advise the Tribunal that they are appealing its decision. However, once the Tribunal is advised of an appeal or judicial review, the Tribunal is committed to obtaining copies of decisions on those matters.

2. PROCESSING OF HEARINGS

This phase includes all administrative steps necessary to process an appeal/application from the date of filing to the rendering and posting of the written decision on the Tribunal's website.

Commitment #6: *Timeliness in scheduling Hearings:*

The staff is committed to ensure that every appeal/application is processed using the appropriate administrative tools to provide timely scheduling of all matters before the Tribunal. Staff will adhere to timeliness standards and ensure, on average, that within 30 calendar days from the date the appeal/application is received by the Tribunal, it is scheduled for a hearing. This commitment does not apply to the scheduling of hearings under the *Consolidated Hearings Act* as the complexity of the administrative process does not allow for the scheduling of these hearings within that time frame.

Risk Assessment:

In the scheduling of complex hearings, it may be difficult for staff to adhere to the timeliness standards. In proceedings involving multi-parties, it may be difficult to obtain information from all the parties by the same date. However, the staff will endeavour to ensure that all parties receive the same standard of timeliness in scheduling appeals/applications.

The Tribunal has no control over the number of appeals/applications filed or the complexity of its workload. The number of appeals filed with the Tribunal is related to the number of instruments issued by the Directors of the Ministry of the Environment; the number of decisions made regarding development permit applications and the number of Niagara Escarpment Plan Amendments that are referred to the Tribunal. Any increase in the issuance of these instruments or decisions may have an impact on the number of appeals filed with the Tribunal, the workload of the Tribunal staff and their ability to process and comply with these timelines.

The Tribunal also has no control over the increase of responsibilities resulting from changes, amendments or additions made to its governing legislation. Increases to the Tribunal's responsibilities may impact the staff's ability to meet their scheduling timelines.

3. MEDIATION

Mediation is offered and available to all parties in all proceedings before the Tribunal except in appeals of development permit applications or Plan amendment proceedings under the *Niagara Escarpment Planning and Development Act*, and matters under the *Oak Ridges Moraine Conservation Act, 2001* and the *Greenbelt Act, 2005*. Most of the Tribunal Vice-Chairs and some Members have been certified as mediators through accredited courses. Mediation is offered in a timely manner and held after a preliminary hearing, generally 30 days prior to the commencement of a hearing. The use of mediation in the hearing process encourages parties to narrow or settle their differences and often removes the need to proceed to a full hearing. The number of required hearing days and issues to be adjudicated are often reduced, resulting in lower costs to the parties and taxpayers.

Commitment #7: Offer Mediation Services:

The Tribunal will continue to offer these services in every appeal and, upon request, in all applications filed in order to encourage parties to resolve their issues. After the completion of the mediation session, the Tribunal will continue to distribute Questionnaires to the parties to ascertain its performance. The Questionnaires are designed to request comments regarding the parties' level of satisfaction with the process and the Tribunal's services. The Tribunal will continue to monitor the number of cases in which mediation sessions were successfully held and a hearing was cancelled. Further, Questionnaires that are completed and returned will be reviewed by the Tribunal, in order to improve its services.

Risk Assessment:

Mediation should be held in a timely manner. The Tribunal is willing to assist parties in mediating their case after the preliminary hearing and before the hearing or anytime thereafter. However, not all parties wish to participate in the mediation process, which is voluntary. This variable may affect the public's perception of the Tribunal's performance in this area.

Questionnaires completed by the parties at the conclusion of a mediation session provide the Tribunal with valuable input into the process. However, some Questionnaires contain comments about the process prior to the commencement of the Tribunal's involvement or comments relating to matters beyond the mandate of the Tribunal. Since the

Questionnaires are submitted anonymously in order to encourage truthful responses and ensure fairness for those people who may appear before the Tribunal in the future, the Tribunal is not able to address these concerns.

4. PUBLIC ACCESS

The Tribunal will continue to improve its communication with stakeholders, parties and members of the public. Through its website, the Tribunal will also continue to provide updated information to the public on its processes, status of hearings, scheduled hearings, decisions and orders.

Commitment #8: Website Access:

The public has embraced the website as the primary method to obtain information about the Tribunal and its processes. The Tribunal will continue to provide website access for the filing of appeals and applications electronically, obtaining information, and copies of its decisions and orders, the Tribunal's Rules of Practice and Practice Directions, relevant statutes and "Guides" that describe the Tribunal's processes. The website will continue to elicit stakeholder feedback; and provide the status of ongoing hearings as well as continue to be a vehicle for receiving comments on significant changes to the Tribunal's Rules of Practice or processes. The Tribunal's website will continue to be updated daily with hearing-related information.

The Tribunal will continue to improve the information provided on the website by reviewing its contents and updating materials. The Tribunal will review its website for ease of use and accessibility to information.

Risk Assessment:

During this fiscal year, the Tribunal's information and technology support was transferred to the Justice IT Cluster. Should the website not be available, the Tribunal will not have dedicated information and technology support. This may result in a delay in providing a functioning website and the public will not have website access to file an appeal or application or to obtain information regarding the status of cases or information about the Tribunal.

The Tribunal has also transferred the responsibility of posting orders and decisions from a dedicated systems officer to Tribunal support staff. If the material to be posted on the website is more complex, Tribunal

support staff may require the assistance from a systems officer. This may case a delay in the posting of the material on the website.

Commitment #9: Update Rules of Practice and Practice Directions, Guides and Tribunal Policies:

The Tribunal will continue to update its Rules of Practice and Practice Directions immediately following changes to legislation affecting the Tribunal's mandate or whenever housekeeping amendments are required. The Tribunal will continue to update its "Guides" to reflect any changes to its Rules of Practice and Practice Directions. Rules and "Guides" are available from the website in a downloadable format or in paper form, upon request. Tribunal Policies, such as the Complaints Policy, will be updated and new policies will be developed as required.

Risk Assessment:

There are limited risk factors in keeping these documents current as they are available in a Word format that allows ease of update. The downloadable format does not require any additional financial resources for production. However, as changes occur, the Tribunal will have to make a commitment to set aside time for staff to implement the changes and proofread the documents.

Future Challenges 2009-2011

Over the past year, the Tribunal was appointed as the appellate body for matters under the *Clean Water Act, 2006* and to act as the Hearing Officer, under the *Greenbelt Act, 2005*.

The Tribunal now adjudicates applications, appeals and referrals under a total of 12 statutes.

With these added legislated responsibilities, the Tribunal continues to hold Learning Programs and training sessions and is committed to ensuring that its Members and staff are properly trained to perform their duties and obligations efficiently and effectively. The Tribunal will also continue to revise its Rules of Practice and Practice Directions, and Guides as these legislative changes occur.

The Tribunal will be adjusting to its new premises at 655 Bay Street over the next year as part of the Assessment, Environmental and Municipal Appeal Tribunals cluster and anticipates that the resulting shared administrative functions will lead to greater efficiencies in the delivery of Tribunal services. Despite physical changes and adjustments, the Tribunal is committed to meeting its key commitments and performance measures set for the four main core functions.

The Tribunal is committed to providing an excellent level of customer service in its new location.
