Rules of Practice of the Environmental Review Tribunal

PREAMBLE

These Rules have been adopted by the Environmental Review Tribunal pursuant to the *Statutory Powers Procedure Act* on September 12, 2016. These Rules replace the Rules of the Environmental Review Tribunal adopted on July 6, 2015.

The Tribunal hears applications and appeals under a number of environmental statutes in its role as the Environmental Review Tribunal. It also hears appeals of development permit applications and conducts Niagara Escarpment Plan amendment proceedings under the *Niagara Escarpment Planning and Development Act* in its role as the Niagara Escarpment Hearing Office. The Tribunal also conducts some proceedings under the *Oak Ridges Moraine Conservation Act, 2001* and the *Greenbelt Act, 2005* in its role as the designated Hearing Officer. As the Office of Consolidated Hearings, the Tribunal provides administrative support to Joint Boards hearing matters under the *Consolidated Hearings Act*.

The Tribunal also publishes Guides that provide a general overview of the procedures to be followed in proceedings held by the Tribunal. These Guides are available from the Tribunal or its website (elto.gov.on.ca/ert/).

The Forms contained in the Appendices to these Rules are also available from the Tribunal's website (elto.gov.on.ca/ert/).

1. The purposes of these Rules are: to provide a fair, open, accessible and understandable process for Parties and other interested persons; to facilitate and enhance access and public participation; to encourage co-operation among Parties; to assure the efficiency and timeliness of proceedings; and to assist the Tribunal in fulfilling its statutory mandate.

83. After hearing arguments at the beginning of the Hearing, the Tribunal may choose to reserve its decision until later in the Hearing or at the end of the Hearing if it appears to the Tribunal that this delay is advisable.

A notice of allegation shall specify how the relief sought is related to the alleged acts or omissions of that person and shall not rely on different grounds or seek different relief than set out in the notice of appeal. The notice of allegation shall include the facts that the Party relies on in support of the allegation, how the allegations relate to the grounds and relief requested in the notice of appeal and the address, telephone number and fax number of the person against whom the allegation is made. The notice of allegation shall be served on that person and the Parties and shall be filed with the Tribunal together with proof of service with the first document the Party files with the Tribunal.

- (a) is of the opinion that it is not practical to hold the Hearing in a manner that is open to the public; or
 - (b) makes an order under Rule 209.
209. At the request of a Party or on its own initiative, the Tribunal may order that part of a Hearing be closed to the public if the Tribunal determines that intimate financial or personal matters or other matters may be disclosed at the Hearing of such a nature that the desirability of avoiding disclosure outweighs the desirability of adhering to the principle that Hearings be open to the public.

Access to Documents and the Tribunal Record

210. All persons are entitled to have reasonable access to the Tribunal's public record unless the Tribunal makes an order under Rule 211.
211. At the request of a Party or on its own initiative, the Tribunal may order all or part of a document to be marked "confidential", where appropriate, in which case it shall not form part of the public record.

COSTS (RULES 212-231)

Objectives of Costs Rules

212. A costs award refers to the reimbursement of reasonable and eligible expenditures incurred by a Party for participation in a proceeding before the Tribunal. The objectives of the Tribunal's costs Rules are to: provide consistency and predictability in the awarding of costs by outlining relevant principles and evaluation criteria; to encourage responsible conduct in proceedings; and to discourage unreasonable conduct.

Scope of Costs Awards

213. A wide authority to award costs applies to proceedings under the *Consolidated Hearings Act* and the *Environmental Assessment Act* and to proceedings under sections 20.15 and 36 of the *Environmental Protection Act* and section 74 of the *Ontario Water Resources Act*. A limited authority to award costs in situations of improper conduct applies to all proceedings before the Tribunal except Niagara Escarpment Plan amendment proceedings under the *Niagara Escarpment Planning and Development Act* and proceedings under the *Oak Ridges Moraine Conservation Act, 2001* and *Greenbelt Act, 2005*.
214. Only Parties are liable to pay costs and eligible to receive costs awards. Participants and Presenters are not liable to pay costs and they are not eligible to receive costs awards.

Parties Encouraged to Settle Costs Awards

215. Negotiated settlements regarding costs do not require Tribunal review or approval. Parties are encouraged to make every effort to negotiate a costs settlement.

Procedure for Application for Costs

216. A costs application may be filed with the Tribunal at any time prior to the conclusion of the Hearing, or no later than within 30 days from the date of the issuance of the reasons for the decision or report. Submissions for a costs order shall be in written or electronic form, unless a party satisfies the Tribunal that doing so is likely to cause significant prejudice. Except in the case of improper conduct in a motion (see Rule 227) and for other procedural matters, the Tribunal will not make an order for costs unless a Party requests that it be awarded costs and the Party against whom an award is sought has been given the opportunity to make submissions on the issue.

217. The Party seeking a costs award bears the burden of proof and must demonstrate that any requested costs are:
- (a) directly and necessarily incurred in relation to the proceeding before the Tribunal;
 - (b) reasonable in the circumstances;
 - (c) properly documented and verified; and
 - (d) consistent with the principles and criteria outlined in these Rules.
218. When filing a costs application with the Tribunal, the Party seeking a costs award shall provide:
- (a) an explanation of how the requirements in Rule 217 (a), (b) and (d) have been met;
 - (b) a summary statement of hours and fees for each lawyer and consultant, supported by time dockets, invoices and a detailed description of the activity; and
 - (c) a summary statement of disbursements for each lawyer or consultant supported by corresponding invoices or receipts. Where invoices or receipts are not obtainable for good reasons, the Tribunal may accept a written record of individual disbursements and associated dates.
219. In most cases, the Tribunal will not decide issues of costs until the decision on the overall substance of the proceeding is released. If a Party against whom costs are sought objects to another Party's application for costs, the objection and any associated argument must be filed with the Tribunal and the Parties within 14 days after the filing of the costs application or within such time as directed by the Tribunal. The Party seeking a costs award then has five days or within such time frame as directed by the Tribunal to file a reply.
220. In its costs decision, the Tribunal may order to whom and by whom the costs are to be paid and fix the amount of the costs. The Tribunal may also direct the scale at which the costs are to be assessed and assign the actual assessment, subject to confirmation by the Tribunal, to a designated person.

Considerations for Costs Awards Under Section 7 of the *Consolidated Hearings Act*, Section 21 of the *Environmental Assessment Act*, Sections 20.15 and 33 of the *Environmental Protection Act* and Section 7 of the *Ontario Water Resources Act*

221. Under section 7 of the *Consolidated Hearings Act*, section 21 of the *Environmental Assessment Act*, sections 20.15 and 33 of the *Environmental Protection Act* and section 7 of the *Ontario Water Resources Act*, the Tribunal may award costs, may order by whom and to whom the costs are to be paid, may fix the amount of costs or direct that the amount be assessed, and may determine the scale according to which they are to be assessed and by whom they are to be assessed. The Tribunal is not limited to the considerations that govern awards of costs in any court.
222. Notwithstanding the Tribunal's broad jurisdiction to award costs, the Tribunal is committed to an approach to awarding costs that does not act as a deterrent to persons contemplating becoming a Party or continuing to be a Party to a proceeding.
223. Costs awards may be ordered to help defray the costs of participation borne by Parties, other than the Proponent, the Director and government decision makers, who make a substantial contribution to the proceeding through responsible participation.
224. In determining an award of costs, the Tribunal may consider, among other things, the conduct of the other Parties as well as whether the Party seeking the award:
- (a) represented a clear and ascertainable interest;
 - (b) contributed substantially to a meaningful public Hearing process;

- (c) participated in a responsible and informed manner;
- (d) helped the Tribunal to understand the matters at issue;
- (e) demonstrated the purpose for the expenditure of funds;
- (f) coordinated a number of common interests and concerns by forming a group or coalition;
- (g) cooperated with other Parties and shared experts where possible to efficiently address issues and provide evidence;
- (h) contributed to a more efficient Hearing;
- (i) complied with the Rules, the Hearing schedule, Hearing deadlines and any further Tribunal procedural orders;
- (j) made reasonable and timely efforts to share information with other Parties, resolve or scope issues, discuss potential conditions of approval and explore alternative methods of dispute resolution; and
- (k) succeeded in whole or in part at the Hearing.

Other Circumstances in which Costs may be Awarded

225. Under section 17.1 of the *Statutory Powers Procedure Act*, the Tribunal may only order costs to be paid if the conduct or course of conduct of a Party has been unreasonable, frivolous or vexatious or if a Party has acted in bad faith.

This power applies to all proceedings before the Tribunal except proceedings under the *Oak Ridges Moraine Conservation Act, 2001*, proceedings under the *Greenbelt Act, 2005* and Niagara Escarpment Plan amendment proceedings under the *Niagara Escarpment Planning and Development Act*, unless the Niagara Escarpment Plan amendment proceeding is brought under the *Consolidated Hearings Act*.

It is expected that this power will only be used in the rare case where a Party's conduct warrants such an award. In determining an award of costs under this Rule, the Tribunal may consider, among other things, the conduct of the requesting Party as well as whether the Party against whom a costs award is sought:

- (a) failed to attend a Hearing or to send a representative when properly given notice, without contacting the Case Coordinator;
- (b) failed to co-operate, changed a position without notice, or introduced an issue or evidence not previously mentioned;
- (c) failed to act in a timely manner;
- (d) failed to comply with the Tribunal's Rules or procedural orders;
- (e) caused unnecessary adjournments or delays or failed to prepare adequately for Hearings;
- (f) failed to present evidence, continued to deal with irrelevant issues, or asked questions or acted in a manner that the Tribunal determined to be improper;
- (g) failed to make reasonable efforts to combine submissions with Parties of similar interest;
- (h) acted disrespectfully or maligned the character of another Party; and,
- (i) knowingly presented false or misleading evidence.

226. The Tribunal is not bound to order costs when any of the instances listed in Rule 225 occurs nor does the Tribunal have to find that one of the instances occurred in order to conclude that the conduct of a Party has been unreasonable, frivolous or vexatious or that a Party has acted in bad faith. The Tribunal will also consider whether the issues respecting the conduct of such a Party can be addressed by a denial or reduction of costs in its favour rather than a costs award against it.

Costs for Motions

227. Parties shall take all reasonable steps to avoid unnecessary motions and other actions that unduly delay the proceeding. If a motion, or the opposition to a motion, is unreasonable, frivolous, vexatious or brought in bad faith, costs may be awarded, payable forthwith, against a Party.

Determination of Amount of Costs Awards

228. Eligible expenses that may be recovered through costs include:

- (a) legal and consulting fees;
- (b) travel and related expenses;
- (c) transcripts, photocopying, facsimile, delivery costs, applicable taxes; and
- (d) other necessary and reasonable disbursements.

229. In the table below, the Tribunal has established maximum levels for legal and consulting fees and disbursements. Parties should not assume they will recover all of their disbursements or receive full indemnification for legal or consulting fees through a costs award. The Tribunal may make adjustments based on the criteria outlined in these Rules. Based on the circumstances of each case, the Tribunal will determine the scope of the costs and whether the commencement date for work billed may precede the date of the Notice of Hearing. Costs for preparing and presenting the costs application itself are available only where the Party's costs claim is reasonable.

Established Maximum Levels for Legal and Consulting Fees and Disbursements

Type	Description	Maximum Level
Legal Fees	Senior Counsel (>10 yrs. experience)	\$ 290/hr
	Intermediate Counsel (5-10 yrs exp.)	\$ 230/hr
	Junior Counsel (<5 yrs exp.)	\$ 170/hr
	Paralegal or Articling Student	\$ 100/hr
Consulting Fees	Senior Consultant (>10 yrs. experience)	\$ 290/hr
	Intermediate Consultant (5-10 yrs exp.)	\$ 230/hr
	Junior Consultant (<5 yrs exp.)	\$170/hr
Disbursements	Travel by Automobile	40.00¢/km for southern Ontario 41.00¢/km for northern Ontario
	Meals	\$40.00/day
	Photocopies/facsimile	25¢/copy

230. The claimable fees and disbursements are based on current rates and updated rates are available from the Tribunal. The cost of hotel accommodation (if the Hearing lasts more than one day) and meals will normally be allowed when the claimant is located more than

99 kilometres from the Hearing site. Reasonable claims for public transit, taxi or airport limousine travel are acceptable. Reimbursements for air and rail travel and reasonable compensation for travel time will be considered when the claimant is located more than 99 kilometres from the site of the proceeding and the attendance of the claimant is necessary.

Interest Rate

231. Unless ordered otherwise, awards of costs shall bear interest in the same manner as those made under section 129 of the *Courts of Justice Act*.

CORRECTION OF ERRORS (RULE 232)

232. The Tribunal may at any time correct a typographical error, error of calculation or other similar error made in a decision, order, recommendation or report.

NEW EVIDENCE (RULES 233-234)

233. Once the Hearing has ended but before the decision is rendered, a Party may make a motion to admit new evidence.

234. The Tribunal shall not admit new evidence unless it decides that the evidence is material to the issues, the evidence is credible and could affect the result of the Hearing and either the evidence was not in existence at the time of the Hearing or, for reasons beyond the Party's control, the evidence was not obtainable at the time of the Hearing.

REVIEW OF ORDERS AND DECISIONS (RECONSIDERATION) (RULES 235-243)

235. A Party may request a review of an order or decision.

236. Notwithstanding Rule 98, a Party making a request under Rule 235 shall serve and file a Notice of Motion and all supporting material within 30 days of the date of the making of the order or decision that is the subject of the request, except in the case of orders and decisions made under the *Environmental Bill of Rights, 1993*, in which case the request must be made within ten days.

237. Notwithstanding Rule 99, a Party who wishes to respond to a motion to review shall serve and file its submissions and all supporting material within ten days of the serving of the Notice of Motion and all supporting material under Rule 236.

238. In deciding whether it is advisable to review all or part of its order or decision, the Tribunal may consider any relevant circumstances including:

- (a) whether the Tribunal acted outside its jurisdiction;
- (b) whether there is a material error of law or fact such that the Tribunal would likely have reached a different decision but for that error;
- (c) whether there is new evidence admissible under the conditions of Rule 234;
- (d) the extent to which any person or any other Party has relied on the order or decision;
- (e) whether the order or decision is under appeal or is the subject of a judicial review application; and
- (f) whether the public interest in finality of orders and decisions is outweighed by the prejudice to the requester.

239. The Tribunal may grant the motion in whole or in part, based on the material filed and/or the record from the original Hearing, and may make procedural directions for the review.

240. The panel who issued the original order or decision shall not hear the motion to review, but may hear the review itself if so designated by the Chair.

241. The panel who heard the motion to review shall not conduct the review.

242. Following the review Hearing, the Tribunal may confirm, vary, suspend, or cancel the order or decision under review in whole or in part.

243. Rules 235 to 242 are not applicable to proceedings under the *Environmental Assessment Act*, section 142.1 of the *Environmental Protection Act*, the *Niagara Escarpment Planning and Development Act*, the *Oak Ridges Moraine Conservation Act, 2001* or the *Greenbelt Act, 2005*. Decisions made under the *Environmental Assessment Act* can only be reconsidered in accordance with section 11.4 of that Act.

ENFORCEMENT (RULE 244)

244. A certified copy of the Tribunal's decision or order in a proceeding may be filed in the Superior Court by the Tribunal or by a Party and on filing shall be deemed to be an order of that court and is enforceable as such. A Party who files a decision or order with the Superior Court shall notify the Tribunal within ten days of the filing.

NOTICE OF APPEAL/JUDICIAL REVIEW (RULE 245)

245. A person appealing a decision of the Tribunal shall file a copy of the Notice of Appeal with the assigned Case Coordinator at the time the appeal is filed with the court or the Minister. A Notice of Application for judicial review shall be served on the assigned Case Coordinator at the time the application is filed with the court.

TRANSITION (RULE 246)

246. These Rules and Practice Directions apply to all proceedings, including further steps taken in proceedings that were commenced before September 12, 2016.

Practice Directions of the Environmental Review Tribunal

I. Practice Direction for Technical and Opinion Evidence

Purpose

1. Technical staff, advisors, consultants and expert witnesses routinely give scientific and technical information and their professional opinions in reports and testimony on important issues that the Tribunal must resolve. The opinions given usually purport to be the independent professional judgment of the advisor or witness, based on his or her considerable experience and training. The Tribunal relies on the professional integrity and ethics of these witnesses.
2. The purpose of this Practice Direction is to assist Parties, their representatives and their witnesses who will give scientific, technical and opinion evidence to prepare for the Hearing and to present evidence to the Tribunal. The Tribunal seeks to ensure the reliability of scientific and technical evidence and opinion evidence provided to it. Comprehensive and reliable evidence will promote efficiency and fairness in the Tribunal's process, decrease cost and delay and make the Hearing process less adversarial.

Technical and Scientific Evidence

3. Many witnesses, particularly government employees, appear before the Tribunal to give evidence of scientific and technical observations, tests, measurements and estimates. While these witnesses are often not considered experts who interpret scientific and technical evidence and provide opinions, they collect, compile and to some extent interpret, information that is essential to the Tribunal's understanding of the issues and often forms the basis for expert opinion evidence. In this Practice Direction, these witnesses are referred to as "technical witnesses" and the scientific and technical information they convey is referred to as "technical evidence".

Opinion Evidence

4. Generally, lay witnesses, including technical staff of companies and government agencies may only state facts, that is, observations made with their physical senses, or in the case of persons with appropriate training, observations made with specialized equipment, for example, taking samples and analyzing them in a laboratory and recording the results. They may not give opinions about the significance of the results of such measurements for environmental quality or human health.
5. To give opinion evidence, a witness must have specialized education, training, or experience that qualified him or her to reliably interpret scientific or technical information or to express opinions about matters for which untrained or inexperienced person cannot provide reliable opinions. Such matters often include whether pollution has caused or is likely to cause significant harm to the environment. Such witnesses are often called "expert witnesses" or "opinion witnesses".

The Role of the Technical Witness

6. The Tribunal expects the witness giving technical or scientific evidence to remain within his or her area of competence. The witness should not attempt to interpret the meaning or significance of tests, observations and measurements unless qualified to do so. The witness should disclose in advance to the other Parties all measurements, tests, observations, and data relating to the issues about which he or she will give evidence, and disclose in examination-in-chief all information relevant to the issues before the Tribunal. Observations, tests, or measurements that do not appear to support the position of the Party for whom the witness is testifying should also be stated.

The Role of Expert or Opinion Witnesses

7. Opinion evidence from a properly qualified expert witness should be based on accurate facts, reliable estimates and accepted or tested techniques or methods of investigation, measurement and analysis. Expert witnesses must present evidence in an unbiased manner and not act as an advocate. The same obligations applicable to technical witnesses apply to expert or opinion witnesses.

The Role of the Tribunal

8. The decisions that the Tribunal must make involve the public interest and may have serious and far-reaching environmental consequences. These decisions must be based on a balanced record, composed of accurate and reliable technical information and professional opinions. All Parties and their representatives and witnesses have a responsibility to contribute to such a balanced record to assist the Tribunal to fulfill its duty. They are expected to make every effort to comply fully with this Practice Direction. The Tribunal expects that lawyers and other representatives will provide appropriate direction to witnesses to achieve this result.
9.
 - (a) The Tribunal expects the opinion witness to provide it with assistance by way of qualified, relevant opinions and accurate information in relation to matters within his or her expertise. Objectivity and impartiality are necessary to assist the Tribunal in making its decision.
 - (b) Evidence that is influenced by the special interests of a Party may be received and considered, but the Tribunal may give this evidence little or no weight.
 - (c) The witness should express an opinion to the Tribunal only when the opinion is based on adequate knowledge and sound conviction. The witness should be reluctant to accept an assignment to provide evidence for use by the Tribunal if the terms of reference of the assignment do not allow the witness to carry out the investigations and obtain the information necessary to provide such an opinion. A witness who accepts an assignment under these circumstances should advise the Tribunal of the limitations that the terms of reference place on his or her ability to provide the information necessary to assist the Tribunal in making a sound decision.
 - (d) Technical evidence and opinion evidence should be, and should be seen to be, the independent product of the witness uninfluenced by the interests of any Party and should, therefore, be fair, objective and non-partisan.
 - (e) The witness must never assume the role of an advocate for a Party. Argument and advocacy should be left to counsel or other representatives presenting the Party's case. This does not preclude the vigorous advancement of strongly held scientific or other professional opinions or prevent a duly qualified witness who is also a Party from advancing technical and opinion evidence.

- (f) The witness has a duty to change his or her opinion where circumstances, such as the receipt of new information, require it. If at any time before the Tribunal issues its final decision, the witness changes his or her view on a material matter for any reason, particularly after having read the reports or listened to the evidence of witnesses for other Parties, the change in the information and/or opinion should be communicated to the other Parties and the Tribunal without delay. Where reports or documents prepared by the witness contain errors or information which has changed, this must be promptly identified. However, the witness must not change his or her opinion or change or withhold information to suit the position taken by any Party.

Preparing Reports

10. In preparing reports to be used by the witness' employer or client in determining the issues to be raised and the employer or client's position on those issues and for use as evidence, and in testifying before the Tribunal, the witness has the following disclosure duties:
 - (a) It is the responsibility of the witness to make fair and full disclosure.
 - (b) The witness should make it clear when a particular question or issue falls outside his or her expertise.
 - (c) To provide enough information on the assumptions made, procedures used and conclusions drawn to allow comprehension of the report as it stands, and to permit fair and efficient cross-examination.
 - (d) When the witness is providing an opinion or giving evidence on an issue for which there are differences of professional or scientific opinion he or she has an obligation to make such differences clearly known to the Tribunal and all Parties. The witness should make reasonable efforts to be fully informed of those differences.
 - (e) The witness should state all the material facts and assumptions upon which his or her opinion is based. He or she should consider and acknowledge material facts which could detract from the opinion. Where the facts are in dispute, the Tribunal expects that the witness will give his or her view of the facts and the proof relied upon before giving the opinion.
 - (f) Where the opinion and evidence are based on information contained in other documents, detailed references should be provided in any report prepared by the expert and copies of those documents made available on request before and during the Hearing.
 - (g) The witness is expected to disclose to the Tribunal and to the other Parties all significant information and opinions, and errors, shortcomings and limiting factors even if no one has asked for them.
 - (h) The witness should give direct answers to questions and should not be evasive while giving testimony. Any effort to avoid answering direct questions could adversely affect the weight assigned to the witness' evidence on the issue or the evidence as a whole.

Giving an Opinion

11. (a) When giving an opinion, the witness should provide a resume of the witness' qualifications and should state and explain the degree of certainty of the opinion or the level of probability that it is correct. The degree of uncertainty and the reasons for uncertainty should be candidly acknowledged. Uncertainties and assumptions inherent in measurement, estimates, projections and predictions should be clearly identified. The level of confidence or the sensitivity to error must be explained.
- (b) Where there is a lack of consensus with respect to the use of a particular model or formula, the rationale for the chosen approach should be identified.
- (c) If the witness' opinion is not properly researched because insufficient data are available, this shortcoming must be stated. Any limiting qualifications to the opinion should be identified. The Tribunal expects to be told when a lack of factual information or experience will increase the probability of inaccurate conclusions or predictions. The witness should avoid speculation where data are insufficient.
- (d) Where an estimate falls within a range of reasonable possibilities, based on the same data, the variance within that range should be thoroughly disclosed. Where a prediction can lead to a range of potential impacts, that range should be fully described.

Plain Language

12. (a) In preparing reports and giving testimony, the witness should take into account that the Hearing process is a public process in which reports and testimony must be understood by participants and observers who may not have any significant technical knowledge. Therefore, the language and writing style should be simple and direct and scientific or technical terms and concepts should be explained in clear, simple language.
- (b) Where specialized language is necessary to accurately convey information, the witness should use it rather than risk misleading or over-simplifying. However, the witness should avoid the use of scientific terms and jargon and unfamiliar acronyms, or at least fully explain those terms, so that the technical information and opinion can be easily understood.

Issue Resolution

13. (a) The Tribunal expects that the witness will attempt to adequately address, well in advance of the Hearing, the concerns raised by other Parties in an effort to resolve issues, shorten the Hearing and save time and expense.
- (b) The Tribunal may order the Parties' consultants (including independent consultants, technical or professional staff and advisors) to have one or more meetings and, where appropriate, communicate directly with each other outside of meetings in order to expedite the proceeding. The purposes of the meeting are to:
 - (i) exchange all relevant information and documentation related to facts or opinions in dispute;
 - (ii) discuss all facts or opinions in dispute with a view to reducing or eliminating areas of controversy;
 - (iii) arrange for a site visit if this may assist the consultants to obtain more complete information;

- (iv) reach consensus on facts, issues and opinions which do not require a determination by the Tribunal;
- (v) clarify differences of opinion and to consider whether further studies or information are required;
- (vi) where applicable, develop conditions of approval acceptable to all Parties; and
- (vii) explore any other means of resolving areas of dispute between the Parties.

Efficiency

- 14.
- (a) Reports, witness statements and information should be produced in a timely fashion to all Parties.
 - (b) All reasonable requests for answers to written questions (often referred to as “interrogatories”) must be answered promptly and thoroughly by the witness.
 - (c) Notwithstanding the requirements for full disclosure, the witness should make every effort to give succinct answers (while at the same time ensuring that they are direct and complete) to questions put to him or her in writing, in examination-in-chief, in cross-examination and in re-examination and by the Tribunal. Answers should be concise, responsive and focused on the most essential issues.
 - (d) During his or her testimony a witness should not be called upon to review the minutia of fundamental techniques, and to read correspondence and other reports line-by-line, unless it is clear that the purpose of such elaboration warrants this expenditure of time.

Compliance

15. If this Practice Direction is not complied with, the Tribunal may:
- (a) decline to accept the opinions or evidence of an otherwise qualified witness;
 - (b) admit the evidence, but accord it little weight;
 - (c) adjourn the date of the Hearing until such time as this Practice Direction is complied with;
 - (d) note the conduct of the witness and subject the witness to adverse comment in its decision;
 - (e) report a breach of professional standards of conduct, an attempt to mislead, incompetence or negligence, extensive violation of this Practice Direction, or serious interference with the Tribunal’s process to the professional association or licensing body responsible for compliance with standards of conduct; and/or
 - (f) order that costs be paid forthwith by the Party who retained or employed the witness.

II. Practice Direction for Tribunal Appointed Mediators

Note: This Practice Direction does not apply to proceedings under the *Niagara Escarpment Planning and Development Act*, *Oak Ridges Moraine Conservation Act, 2001* or *Greenbelt Act, 2005*.

Purpose

1. Environmental disputes often involve difficult situations involving many Parties and complex and conflicting values, interests and positions. In disputes that come before it, the Tribunal is given decision-making powers under Ontario's environmental protection legislation. The Tribunal recognizes that the assistance of a mediator can frequently reduce the scope of disputes and can even lead to agreements that eliminate the need for a Hearing. The Chair may decide to appoint a different member of the Tribunal or another person to assist the Parties in negotiations relating to some or all matters in dispute among them. These negotiations are independent of the Hearing process.
2. Mediation involves negotiation assisted by a neutral third Party, who assists the Parties to deal constructively with the issues in dispute among them. A mediator is able to take an active approach in helping the Parties to achieve a broader understanding of the issues, to look for ways to bring new and relevant data to the discussions, to look at things from a variety of perspectives, to generate options and to construct solutions.
3. This Practice Direction has been developed in an effort to communicate the Tribunal's expectations of the conduct of both the Parties and mediator in those cases where a mediator has been appointed. It is imperative that the Tribunal's adjudicative role not be compromised by the appointment of a mediator. For that reason this Practice Direction may represent a departure from mediation principles, processes and practices followed elsewhere. This Practice Direction does not constitute a comprehensive code for mediators, and is not intended to exclude the application of generally accepted and/or reasonable practices and principles that do not conflict with it.

Mediation Practice

4. All Parties must agree to the mediation process.
5. The most important outcomes of a mediation process are: an understanding by the Parties of the position and interests of other Parties, information sharing and constructive negotiations. Although it is desirable, it is not a requirement that the Parties reach agreement on all or even just some of the issues discussed during the process.
6. The Tribunal expects that negotiations and agreements will reflect the purposes and objectives expressed in the applicable legislation and regulations.
7. The content of discussions during the mediation process (and documents prepared as part of the mediation process) are privileged, and will not be communicated at any time by the mediator to non-Parties, the public, the media or the panel, except with the consent of all Parties.
8. The notes, records and recollections of the mediator are confidential and shall not be subject to disclosure in subsequent Tribunal or other proceedings, and shall not be admissible as evidence.

9. The mandate of the mediator includes the following:
 - (a) reviewing the issues and assessing the willingness of the Parties to negotiate;
 - (b) facilitating discussion and sharing of information;
 - (c) organizing, scheduling and chairing meetings and developing agendas;
 - (d) imposing deadlines in the mediation process, when necessary;
 - (e) developing agreement on the issues to be addressed during the mediation;
 - (f) designing the mediation process with the Parties;
 - (g) seeking to reduce conflict and increase co-operation and trust among the Parties and assisting the Parties in an impartial manner to conduct constructive negotiations and pursue creative problem-solving;
 - (h) working with the Parties to ensure that they fully understand each others' interests and positions and encouraging the Parties to explore the development of consensus on the issues in dispute;
 - (i) informing the Parties of pertinent Tribunal policy (as stated in its Rules, Practice Directions, annual reports, decisions and rulings, or other public domain documents) where appropriate;
 - (j) identifying relevant environmental or other concerns which have not been addressed or adequately resolved by the Parties;
 - (k) requiring that the directions contained in this Practice Direction be followed throughout the mediation, and that the integrity of the process be maintained by all participants; and
 - (l) advising the Tribunal whether a Hearing is required if issues are unresolved.

10. Where the mediator is a member of the Tribunal, if a proposed settlement that alters the decision that is under appeal is reached during the mediation by all Parties, or if a proposed settlement reached in mediation is not agreed to by all Parties, and the appeal is proposed to be withdrawn or the Director, Risk Management Inspector or Official, Authority or municipality proposes to revoke the decision that is the subject of the appeal, the mediator shall review the proposed settlement agreement, withdrawal or revocation and consider whether the proposed agreement, withdrawal or revocation is consistent with the purpose and provisions of the relevant legislation and whether the proposed agreement, withdrawal or revocation is in the public interest. The mediator shall also consider the interests of Parties, Participants and Presenters. After the consideration of the above factors, the mediator may decide that the Hearing should continue or may issue a decision dismissing the proceeding. If during a mediation an appeal is proposed to be withdrawn and the decision under appeal is not altered, or an application is proposed to be withdrawn, the mediator shall issue a decision dismissing the proceeding in accordance with Rules 198 and 199. However, where the mediator determines that the panel should review the settlement agreement, withdrawal or revocation, rather than the mediator, the mediator shall provide a report and the agreement, where applicable, to the panel for consideration under Rules 199 to 202. Where the mediation is conducted by a non-Tribunal member, a proposed settlement will be reviewed by the panel in accordance with Rules 199 to 202.

11. No Party or Participant who enters the Hearing process subsequent to a mediation will be allowed to raise issues in respect of which a mediated agreement has been reached, without leave of the Tribunal.

12. Agreements reached by the Parties shall be promptly put in writing and signed by them or by their duly-authorized representatives.

13. The Tribunal and the mediator will communicate with each other only in writing or email, with copies provided to the Parties.
14. If the Parties do not settle the matter in its entirety, the mediator shall prepare a Mediator's Report listing the issues that remain outstanding and setting out any agreed upon dates or steps to set dates for the resumption of the Hearing and shall send a copy to the Parties and the Tribunal.
15. The confidentiality of communications of the Parties and of the mediator shall be strictly maintained by the mediator. The mediator may communicate privately from time to time with individual Parties unless the Parties agree that there will be no private communications. The mediator will not advise a Party (or anyone else) of information which was received by the mediator from another source, if that information was given on the basis that it would not be disclosed, unless the source subsequently consents to the disclosure. The mediator may elect to refuse to receive information from a source on a non-disclosure basis.
16. The mediator shall, in the event that Parties will be proceeding to a Hearing, work with the Parties to ensure that they are ready to proceed on schedule and in a timely fashion. With the consent of the Parties, and subject to paragraph 7, the mediator will advise the Tribunal as to whether the Parties are ready to proceed, and include any suitable recommendations.
17. The mediator shall not do, say, or disclose anything which would compromise the neutrality and independence of the Tribunal or undermine its adjudicative role. Nor shall the mediator provide strategic coaching to individual Parties to improve their chances of success before the panel or champion their cause in any forum.
18. The Tribunal and the mediator shall not be a party to any agreement reached in mediation.
19. The mediation process should, wherever possible, be scheduled in such a manner as to permit adequate time for the preparation for, and completion of, the mediation, without creating conflict with the Hearing schedule if a Hearing is required despite the mediation.

III. Practice Direction for Site Visits

Purpose

1. The purpose of this Practice Direction is to provide guidance for the process and conduct of a site visit.
2. The purpose of a site visit is to provide the opportunity for the Tribunal to better understand the issues raised or the evidence submitted in a particular Hearing. A site visit is not held for evidence gathering, although the questions and answers raised as a result of the site visit may be evidence at a Hearing.

Who may attend site visits

3. Parties and Participants may attend a site visit as of right. Presenters may ask the panel for permission to attend. In some cases there may be quite a large number of Presenters and practicality concerns dictate that they may not attend as of right. However, in most cases where the number of Presenters is small, they will be granted permission to attend.

When a site visit should be held

4. A site visit will only be undertaken when the panel has determined that it is required in order to appreciate or understand the evidence or issues raised. Examples of when a site visit would be appropriate include those situations where the proximity of certain features on the site to each other or to neighbouring properties is at issue or where an appreciation is needed of the size or scope of an undertaking or natural feature.
5. An order to conduct a site visit may be made over the objection of a Party or Participant. The decision to hold a site visit is that of the Tribunal. Where a proposed site visit is contested, the Tribunal shall hear the submissions from the Parties and Participants before making an order for a site visit.
6. Access to property, other than a residential dwelling, is authorized by section 9 of the *Environmental Review Tribunal Act*.

How a site visit is held

7. A written procedural order may be sent to the Parties, Participants and those Presenters granted permission to attend setting forth the date, time and location of the site visit. The order will provide that if a person does not attend, the site visit may proceed in his or her absence. If a written order is not practicable, the panel will, in his or her oral order, warn persons that if they do not attend, the site visit may proceed in their absence. The order should address the scope of the visit, areas to be observed and who is to attend.
8. During the site visit, the rules of procedural fairness will be observed at all times. Any discussion related to the proceeding and involving the panel must be capable of being heard by all in attendance.
9. If the site visit is on private property, the owner or occupier may be concerned about confidential information on the site being accessed by members of the public. This may occur particularly in the case of an industrial or commercial occupier of the site. In this case, it may be appropriate for each attendee to sign a non-disclosure agreement. The

person requiring such an agreement should bring this to the attention of the panel during the Hearing and other persons should be permitted to make submissions prior to a ruling on whether a non-disclosure agreement need be signed.

10. If the site visit is on property that may be hazardous or under construction, the property owner or occupier may be concerned about persons injuring themselves. In this case, it may be appropriate for each attendee to sign a waiver of liability agreement. The person requiring such an agreement should bring this to the attention of the panel during the Hearing and other persons will be permitted to make submissions prior to a ruling on whether a waiver of liability need be signed. Safety wear such as hard hats and work boots will be mandatory on such visits.

Use of information obtained at the site visit

11. If a member makes any material observations during the site visit upon which he or she intends to rely, he or she should first advise the Parties, Participants and Presenters of the observations and provide them with an opportunity to make submissions before making an order or decision in reliance of those observations.
